

OhMiBod's line gives seven new reasons to Lovelife

November 1, 2013 (Portsmouth, NH) – OhMiBod, an award-winning innovator of sexual health products, proudly invites you to Lovelife with its new line of personal massagers. Inspired by its co-founders' 26-year relationship, each Lovelife product was named and designed to reflect the key components to their successful relationship: share, adventure, discover, smile, flex, dream and cuddle.

"Lovelife embodies the passion that my husband and I have for each other, as well as the industry we serve," said Suki Dunham, co-founder of OhMiBod. "Over the years, we have shared many amazing experiences that wouldn't have been possible without our commitment to values such as sharing, smiling, discovering and dreaming. We are proud to share the spirit of that love and passion through the Lovelife line."

Designed with luxury and affordability in mind, OhMiBod's Lovelife offers something for everyone. Its marquee product is Adventure -- a triple stim, ergonomically designed massager. Other products include a vibrating couples ring, a mini-massager and a set of Kegel exercise aids.

All products in the Lovelife line are USB-rechargeable, made with body-safe silicone, and come with a standard one-year warranty. Prices will range from \$39 to \$99.

Dunham added, "Lovelife continues OhMiBod's mission to shift cultural attitudes toward self pleasure and pleasure products. We're both proud and excited to bring it to consumers just in time for the holiday season."

Lovelife will be available at OhMiBod.com and select retailers worldwide in November 2013.

About OhMiBod
