

OHMIBOD PRODUCTS FEATURED IN *OBJECTS OF DESIRE* COFFEE TABLE BOOK

Stratham, NH – April 18, 2016 – [OhMiBod](#), a leading innovator in sexual health technology, is featured in *Objects of Desire: A Showcase of Modern Erotic Products and the Creative Minds Behind Them*. The coffee table book, which was penned by award-winning design journalist Rita Catinella Orrell, explores the cutting-edge and creative endeavors of contemporary adult pleasure products.

"It is honor to have our blueMotion and Lovelife products so beautifully displayed in Rita's book," said OhMiBod founder Suki Dunham. "At OhMiBod, we pride ourselves on creating high-quality, innovative products that appeal to both individuals and people in relationships. To be singled out for our design aesthetic is a thrill."

OhMiBod's adult pleasure products grace eight pages in the new product design book. The blueMotion Bluetooth-enabled wearable massager, Lovelife Flex Kegel weights and Lovelife Share couple's vibrator each feature on two-page spreads with detailed product benefits. The book also highlights three additional massagers from the Red Dot Design award-winning Lovelife collection: Smile, Discover and Adventure.

Though OhMiBod always keeps product design in mind, the sex tech manufacturer prides itself on product safety. Each massager is made with phthalate-free, body-safe silicone and comes with a one-year warranty. They're also splash proof and deliver powerful but quiet vibrations in a range of patterns for maximum pleasure control.

"For us, it's not enough to create products that appeal to the eye," added Dunham. "It's essential that each massager provides an experience that pleases the body, mind and soul. We hope those goals shine through for anyone who reads *Objects of Desire*."

Rita Catinella Orrell is a design journalist and blogger who writes about interior, kitchen and bath design, home furnishings and architectural building products. She found stimulating inspiration in the structural engineering of some of today's most popular sex toys — an area in which OhMiBod is a pioneer.
